

# Softwoods

List of Options  
(Subject to availability)

1. Pine
2. Cedar

# Pine

- **Distribution:** Western North America
- **Color/Appearance:** Heartwood is reddish brown, sapwood is yellowish white.
- **Grain/Texture:** Straight grained with medium texture.
- **Common Uses:** Veneer, plywood, sheathing, subflooring, boxes, crates, posts/poles, interior trim, cabinetry, and construction lumber.

# Cedar

- **Distribution:** Eastern North America
- **Color/Appearance:** Heartwood tends to be a reddish or violet-brown. Sapwood is a pale yellow color and can appear throughout the heartwood as streaks and stripes.
- **Grain/Texture:** Has a straight grain, usually with knots present. Has a very fine even texture.
- **Common Uses:** Fence posts, closet and chest linings, carvings, outdoor furniture, birdhouses, pencils, bows, and small wooden specialty items.
